Re: DermaMedix Consulting

To Whom It May Concern:

Michelle Gonzales, President and Founder of DermaMedix Consulting, has been an integral part of assisting us in our professional needs at Alamo Hills Advanced Aesthetics & Laser Center.

Not only has she been insightful, conscientious, and detail oriented, but her follow through and ability to establish a long lasting relationship with us has developed the trust and confidence that we can count on for future business needs or questions.

There are few consultants that provide the reliability and affordability that DermaMedix Consulting provides. I highly recommend their customized services for your business.
